Northern CA Prescribed Fire Council - 2018 Meeting April 23-24, Mt. Shasta, CA

Are you curious about recent progress on prescribed fire policy?

Do you want to hear about innovative training and collaboration that's going on in northern California, and learn about new science and management tools related to prescribed fire?

Do you want to connect with other people who are passionate about prescribed fire?

If so, you should join us in Mt. Shasta on April 23-24 for this year's annual meeting of the Northern California Prescribed Fire Council!

This year's meeting will include a half-day field tour/demonstration burn on Monday, April 23, an evening social and dinner that evening, and a full-day meeting on Tuesday, April 24.

Presentations include:

- A local history of light burning, Eric Knapp, USDA Forest Service Pacific Southwest Research Station
- Storytelling by Carl Skinner, who served as the Fuels Management Officer on the Mt. Shasta Ranger District many years ago!
- A weather enterprise approach to burn planning, John (Brent) Wachter, USDA Forest Service, and Brett Lutz, National Weather Service
- California's first prescribed burn association: an update from Humboldt County, Lenya Quinn-Davidson, UC Coop. Extension
- Update on California's prescribed fire policy efforts, Nick Goulette, Watershed Research and Training Center
- Reflections from a burn boss, Norb Szczurek, North Lake Tahoe Fire Protection District (retired) and Nevada Rx Fire Alliance
- As well as an update from the Natural Resources Conservation Service on their Rx fire policy, a presentation from a visiting fire researcher from Australia, and much more!
